Trip:

There was a conference call with Friendship Force. Attendees were William, Megan and Lew. Have not heard any more since.. Website has information on safety. Two schools will be staying with DHS. We have talked with embassy and officials about security. We are trying to set up a conference call with the people who have been there to talk about security. The host will be at the October DHSBPA meeting. We will cancel the trip if security is a risk but there are no risks at this time. There have been rumors that certain people cannot go on the trip -anybody can go. There will be one concert and one marching performance. Payment schedule will be announced. Need 40 or 50 kids to commit in order to be able to perform. Need to generate some interest among the students. Drill team members – will there be a performance during the trip. Megan - if enough of them are interested – we will have a special performance.

Meeting was adjourned at 7:00PM
